

Polar Pal

Freezer Palletizing

The Ultimate Freezer Workhorse

The freezer rated Polar Pal robotic palletizing system is a versatile and reliable unit. It can pick up and palletize case, bags, trays and just about whatever you need inside a -30 degree freezer room. It does not require any robot jacket or external heaters for it to operate in these conditions. Keep your employees out of the cold and let this system be the workhorse in your operation.

The Polar Pal can handle product at up to 15 picks / minute based on the tool required to handle your product.

Let AMI provide a complete turn-key solution to met your needs.
